Commissioner Jane Henney
Docket No. OOP-1211/Cp1
FDA Dockets Management Branch (HFA-305)
5630 Fishers Lane, Room 1061
Rockville, MD 20852

Dear Commissioner:

I would like to support a moratorium on genetically engineered foods until such time as the proponents of this potential disaster can be forced to fully and accurately label their products and take full responsibility for ALL losses caused directly or indirectly by pollen drift. Once biological changes are made to the environment, I believe they would be irreversible. The delicate balances between organisms originated and sustained by God and proven over millions of years should not be tampered with by a relatively few individuals in the food industry.

Sincerely,

Peter F. Frenzel

OOP-1211
